EDUCATOR FELLOWS

Frequently Asked Questions

What will we do?

You'll work with SAMSAT over eight sessions through the school year, and additional sessions with a teacher-mentor, to develop a project-based learning curriculum, deploy it in your school, and share your curriculum and learnings with your school colleagues. On completion of the program, you'll be a SAMSAT Educator Fellow, and we hope you'll continue to advise and work with SAMSAT to bring educational experiences to students, and training to teachers.

There are teacher stipends?

Yes! Participating teachers will receive a \$1,000. Teachers-mentors will receive \$1,500. Stipends will be paid in 1/3 increments on October 31, January 15, and March 30.

Who are the Teacher-Mentors?

Teacher-mentors ("mentors") are participants with prior PBL experience, with the special role of mentoring other teachers. Each mentor will connect with three participating teachers to advise and assist in project development.

Can you tell me more about the PBL approach?

Program content is based on the PBLWORKS model from the Buck Institute for Education, specifically their models for Gold Standard Project Design and Gold Standard Teaching Practices. Learn more at www.pblworks.org.

What about my students?

The program includes two field trips for your students to SAMSAT AREA 21®. We'll work with you to align the field trip content to your project.

What are the program dates?

Fellows Kickoff

Saturday, September 7, 2024, 8 am to noon

Fellows Celebration

Saturday, March 29, 2025, 8 am to noon
